The Stitch'nFold BookletMaker is the only Booklet-Maker with stitching wire and ISP's patented stitching head technology. It uses ISP's patented magnetic stitching head technology, providing the reliability and economy of wire stitching. Dual sets of folding rollers assure consistent, professional results and for safety, interlocked access covers prevent machine operation when open.

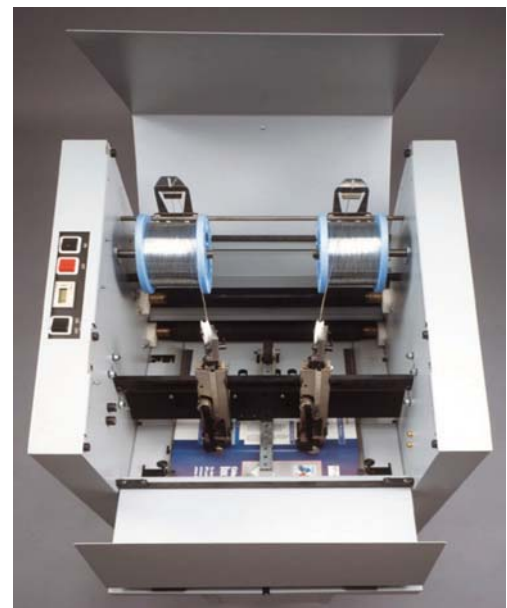

It can jog stitch & fold more than 65,000 booklets at a maximum speed of 2,300 per hour - no stopping to reload staples! Stitch'nFold's variable work thickness

capacity handles from 2 sheets to a hundred page booklet with no set up changes or adjustments.

Operating the Stitch'n Fold is simplicity its self - Just load your booklet and its is automatically jogged, stitched, folded and discharged into an accumulating output conveyor. Side stitching, corner stitching and folding projects (with or without stitching) are all easily undertaken

The Stitch'n Fold uses inexpensive bookbinding wire and forms the stitch itself unlike the cheaper machines which use expensive preformed staples, therefore you save on material costs & non productive downtime.

Specifications

Speed	Up to 2,300 booklets per hour
Capacity	2 to 25 sheets of 80gsm; 100 page book
Re-load	65,000 booklets per spool of wire
Paper Size	Min: A5 Max: 317.5mm x 457mm
Stitch Space	140mm on A5 or A4 tall books 70mm on A6 tall books
Booklets	All metric sizes A6 to A4 finished size (A5 to A3 sheet)
Counter	Resettable 6-digit counter
Folder	Knife fold with dual folding rollers
Squaring	Side jog plus full length tape feed
Output	Continuous conveyor
Electrical	240V ac, 50Hz
Unit Weight	107 Kilos
Footprint	42cm x 57cm
Dimensions	132cm Depth x Width 53cm x Height 63cm
Modes	Stitch & Fold / Stitch / Fold / Corner Stitch / Side Stitch
Options	Collator Interface / Back Jog / Activated Clinch / In-line corner or side stitch gate
