Printers have long considered “on-press” perforating and scoring with offset machinery too difficult. With Perfect-Rules, you can now perforate, score and print simultaneously saving that extra operation and thereby making additional profits.

Perfect-Perf and Perfect-Score are supplied in 2 & 6 metre packs. Both are available with the teeth set in the middle or to one side and a choice of two heights for either paper or card.

Centre-Face rules won't tilt or bend and are designed for high volume offset or web runs whilst the Side-Face variants are designed for perfect corners and butts.

All rules are coated with double sided tape enabling direct application vertically or horizontally to the impression cylinder.
