- **Quick and Easy**
- **User Friendly**
- **5 Fixed Sizes**
- **A4 Size**
- **Up to 280 gsm**
- **Bleeds all four sides**
- **Micro Adjustment**

The Zip-5 cutter/slitter has been designed to handle 5 fixed sizes of cards produced by a variety of printing methods.

The Zip-5 machine uses a fixed blade cassette to remove a 10mm vertical gutter from between the two rows of cards and to trim both edges of the sheet.

A guillotine blade cuts the sheet horizontally as it advances through the machine removing a 3mm gutter. Four fixed lengths are selectable from the control panel and each one can be finely adjusted to compensate for printer drift or paper stretch. This adjustment is +/- 2mm in increments of 0.1mm. The combination of in-line adjustable slitting with programmable guillotine cutting allows common products to be accurately processed in a single pass.

As all finished cards are produced with gutter cuts on all four edges, the Zip-5 allows designers to specify a full bleed image.

Combined with a laser or ink jet printer, the Zip-5 allows business cards & other multiple-up products to be produced with ease.

There are two cut sizes available - the Zip5-89 has sizes 89x45, 89x50, 89x54, 89x95, 89x127 mm and the Zip5-85 has sizes 85x45, 85x50, 85x54, 85x95, 85x127 mm.

Specifications

Machine Size	40 x 53 x 22 (h) cm	Maximum Card Thickness	280 gsm
Machine Weight	14.9 kgs	Minimum Cut Size	85 x 45mm or 89 x 45mm
Program Memories	5	Maximum Cut Size	85 x 127mm or 89 x 127mm
Electrics	220 Volts AC	Maximum Feed Stack	10mm
Maximum Stock Size	297 mm x 210 mm	Cross Cut Precision	0.1mm
Speed (10 up cards)	60 cards/min (3,600 / hour)	Waste Collection	Yes
